Pedro Isaías - Principal Investigator and Educational Lead for Digital Sustainability Hub, created
by UNSW - Sydney. Digital sustainability (DS) is the ability to advance the UN Sustainability
Development Goals (UN SDGs) through the effective deployment of digitally enabled solutions.
DS Hub’s vision is to be a research entity of international repute that brings multi-disciplinary
research groups together with participation from relevant stakeholder groups in society. DS Hub

strives to establish thought leadership in digital sustainability by developing a holistic approach by which entrepreneurial organizations and communities deploy future-ready digital technologies. This holistic approach begins with a detailed analysis of the complex societal challenges facing sustainability issues and works towards innovative digital solutions to address these grand challenges. With Education for Digital Sustainability (EDS) the effort to develop pedagogical innovation and educational artefacts is an important feature of a future-ready research centre that DS Hub aspires to become. EDS will emphasize action-oriented approaches that call for various academic disciplines to work together through inter- and transdisciplinary collaborations to co-create digital solutions and better contribute to the realization of the SDGs. Conceptual frameworks, models, tools, and platforms will also be developed to advance these complex issues. Project duration: 36 months (2021-2023). Total budget: AUD 975.000.

Pedro Isaías - Principal Investigator for HYBOT - Enhancing hybrid teaching in higher education through chatbots. This project aims at empowering Higher Education Institutions' teachers who mostly work in F2F learning environments, to create and implement hybrid teaching scenarios supported with chatbots. Specific objectives are as follows: 1. To enhance teachers' skills related to the design and implementation of hybrid teaching scenarios, 2. To empower teachers to create and deploy chatbots in their hybrid educational settings, 3. To improve learners' experience in hybrid teaching settings supported with chatbots. Project duration: 36 months (2021-2024). Total budget: EUR 281.075.
