Message from the Dean

“

Welcome to ISEG Lisbon!

It is with great satisfaction that we welcome you to ISEG! We are sure that your time at this century-old school will be truly transformative.

ISEG has a long tradition in teaching economics and management in Portugal and has educated a major part of the elite decision-makers in economics and management.

We were the first school of Economics and Management to be founded in Portugal and are an integral part of the country's largest university, Universidade de Lisboa, which is ranked in the top position among Portuguese universities in most international rankings.

Our educational offer is of the highest standard, recognised by international education bodies and rankings such as the Financial Times, AACSB, and AMBA, and is based on a culture of permanent innovation and continuous collaboration between students, faculty, and for-profit and non-profit organisations. This strong reputation has its origins in the quality of our graduates and faculty, as well as in our research and the impact of our activities in the community around us.

At ISEG there is always room for new ideas and being a student here guarantees access to an excellent teaching faculty, magnificent conditions for studying, and an impressive spirit of camaraderie among students! At ISEG we use our hands rather than our elbows to assist those in our team who are our colleagues – in a group, in a lecture, during a year, or at ISEG, whatever the year or study cycle!

At ISEG we feel a sense of obligation to educate people and to make them grow in technical and scientific knowledge, also respecting the School's values and principles which guarantee a space for affirming identity and individual opinion. We want our students to continue to be unique, more than being excellent economists or managers who will go on to change the world!

Now's the time to get make your dream happen and to continue the legacy of those who have gone before you, contributing to ensure that ISEG remains where it belongs – as the school of Economics and Management that has educated most of the elite of Portugal's decision-makers in the fields of economics and management.

We're counting on you!

João Duque
Dean of ISEG

Life at ISEG

Are you ready to get to know ISEG?

ISEG is not just a School. We are in our 112nd year and continue to reflect and mature, from half-past eight in the morning to midnight, be it during a finance lecture in the morning, or drinking a coffee, or having lunch at the kiosk. Or it could be when strolling around the Madragoa neighbourhood in Santos, and, indeed, the whole city of Lisbon, or doing an “all-nighter” in the Library with your study group or to revise for an upcoming test. Many say we have the best academic environment in Lisbon, which we do not deny! At ISEG you’ll build lifelong friendships with fellow students who share your passions and interests and help expand your perspectives on the world. If you want to broaden your student life by being involved in extracurricular activities, cultural events, or sports, then you’re at the right place to expand your world.
